

# The “Tongs” MODEL

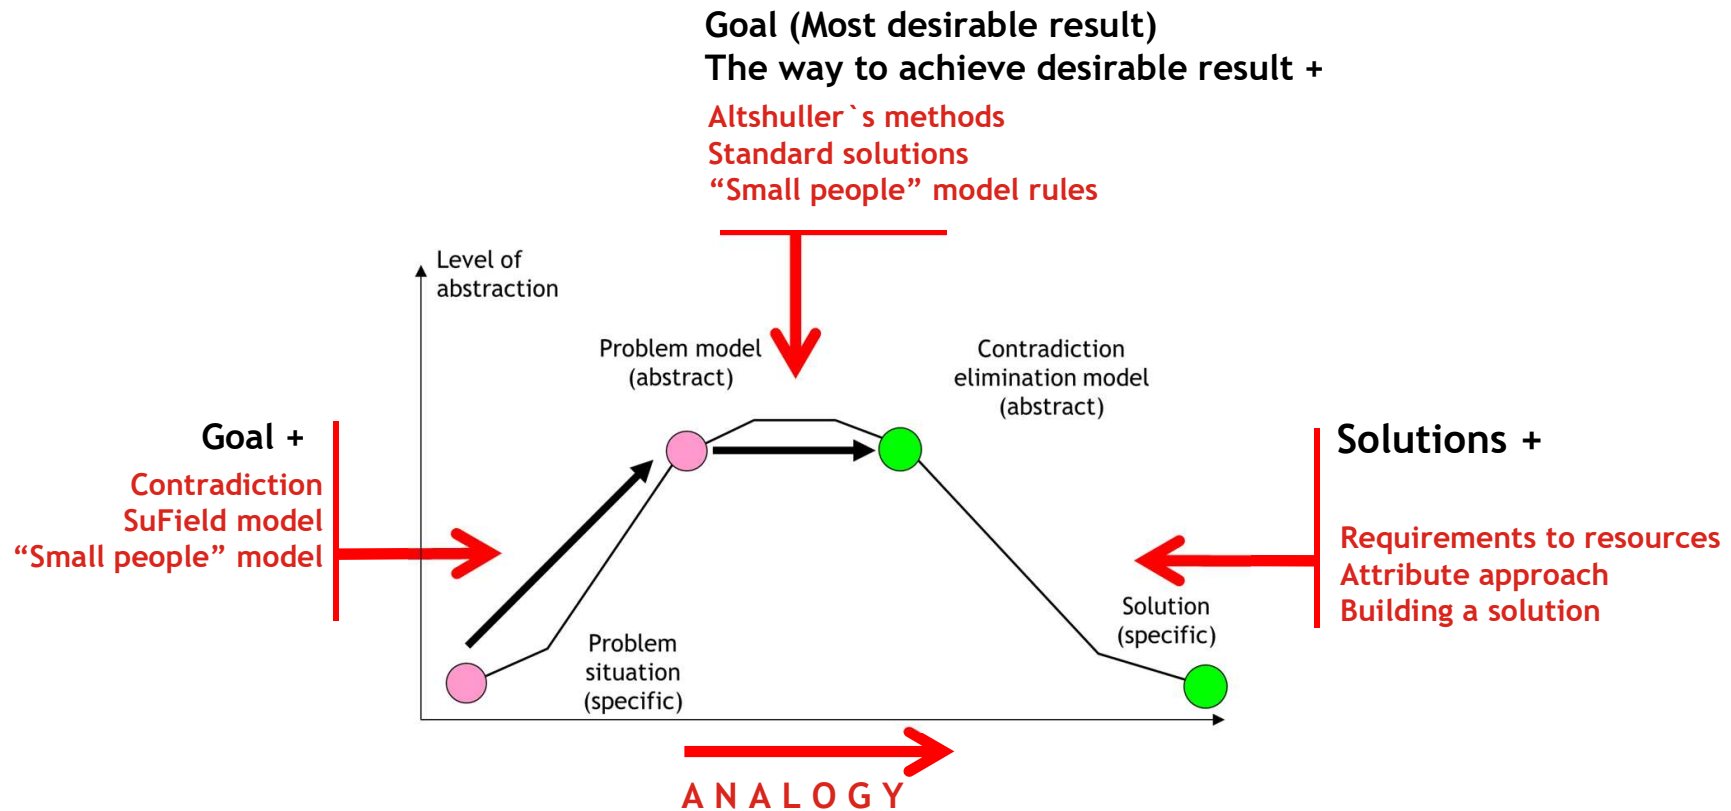

A specific barrier we should overcome is the root of a specific problem.  
The root of the barrier is a hidden CONTRADICTION.

What is the root of a contradiction?

# THE AXIOMS OF WORLD VISION

***Axiom of Unity.** The world is a whole and unique system that evolves in accordance with objective laws of all the sub-systems.*

***Axiom of Disunity.** The world is a set of different systems, each of them evolving in accordance with its specific laws.*

***Axiom of Connectedness Unity and Disunity.** The way the law is manifested in a specific situation is defined by its resources.*

*Consequences:*

*Unity and diversity of the world are governed by the resources used by different systems. Any resource is subject to both general laws and specific laws defined by their specific properties.*

*General objective laws are manifested differently in specific situations. This difference depends on the nature of the interplay between the law and the specificity of the situation.*
